

Thunder Energies Corporation Featured by Silicon Review among the Fifty Most Valuable Startup Companies

TARPON SPRINGS, Fla., July 10, 2017 (GLOBE NEWSWIRE) -- Brian Buckley, Sales Manager of Thunder Energies Corporation, a publicly traded company with stock symbol (OTC:TNRG), announces that Silicon Review has featured Thunder Energies among the fifty most valuable startup companies, as part of the Company's marketing effort.

(<http://thesiliconreview.com/magazines/thunder-energies-corporation-tec-is-a-new-pathway-for-development-in-cutting-edge-technology>).

Excerpts from the Silicon Review: "Thunder Energies, over the period of 3 years has assembled a management team that is now diversified and has the skills to accomplish the tasks needed for the commercialization of its cutting-edge technologies. The CEO is Dr. Ruggero Santilli who has a proven experience in start-ups and has extensive experience in bringing to market his scientific innovations. The three divisions of TEC have reached now a level of development suitable for state and federal funding, and the company has completed all the requirements to be admitted to federal procurement. With the addition of special consultants, TEC has strengthened its technical team and hired a grant writer, who is assisting the company in filing grants applications. One grant has already been filed at the Defense Threat Reduction Agency (DTRA) of the Department of Defense."

Mr. Buckley states: "The Silicon Review is an online and print, high-gloss magazine distributed to CEO, CFO and other professionals and decision makers. It has a worldwide audience of which 61% is in the USA, and the rest in India, UK, Canada and Germany. This article was written before TNRG received the deposit for the directional neutron source

(<https://finance.yahoo.com/news/thunder-energies-corporation-announces-sale-142000927.html>).

Following the publication of the above paid review, Thunder Energies has announced the sale of a Directional Neutron Source for the detection of nuclear weapons with a down payment \$120,000, ensuing the possibility that the company may have a profitable second quarter in 2017 (<https://globenewswire.com/news-release/2017/06/05/1008093/0/en/Thunder-Energies-Receives-Down-Payment-on-Equipment-Producing-a-Directional-Neutron-Flux-and-Predicts-Profitability-for-its-Construction.html>)."

Forward Looking Statements

Certain statements in this news release may contain forward-looking information within the meaning of Rule 175 under the Securities Act of 1933 and Rule 3b-6 under the Securities Exchange Act of 1934, and are subject to the safe harbor created by those rules. All statements, other than statements of fact, included in this release, including, without limitation, statements regarding potential future plans and objectives of the company, are forward-looking statements that involve risks and uncertainties. There can be no assurance that such statements will prove to be accurate and actual results and future events could differ materially from those anticipated in such statements. Technical complications, which may arise, could prevent the prompt implementation of any strategically significant plan(s) outlined above. The Company undertakes no duty to revise or update any forward-looking statements to reflect events or circumstances after the date of this release.
